

Heuristics, Inc.

900 NORTH SAN ANTONIO ROAD, SUITE C-1

LOS ALTOS, CALIFORNIA 94022

(415) 948-2542

Dear Computer Hobbyist:

Thank you for your interest in Heuristics, Inc's Speechlab speech recognition system. Your name has been placed on Heuristics, Inc's mailing list, so you will automatically receive information about Heuristics, Inc's Speechlab speech recognition system and other new products as they are announced. Right now Speechlab is available only for S100 bus computers. Parts and manuals are not sold separately.

A list of stores where Speechlab is being sold is enclosed for your convenience. Visit a store near you for a personal demonstration. If your local computer store doesn't stock Speechlab ask them to contact us. Speechlab kits are available from us (FOB Los Altos; cash or COD, Master Charge or Bank Americard accepted. Calif. residents add 6 $\frac{1}{2}$ % sales tax.) or at your store, \$249 either way. Assembled units are \$299. This includes over 375 pages of documentation, a microphone, 3 programs, and our single board S100 compatible hardware pre-processor.

You might enjoy reading the feature article on Speechlab in the May, 1977 issue of Popular Electronics. More articles and product reviews will appear shortly so look for them in your favorite computer journals.

So far the response to Speechlab has overwhelmed us, but we can still deliver kits or assembled units in from 2 - 4 weeks.

Sincerely yours,
HEURISTICS, INC.

Horace Enea
President
